SUMMARY

Detail-oriented and adaptable software developer with a strong foundation in full-stack web development (HTML, CSS, JavaScript, PHP, MySQL) and a growing specialization in data-driven applications. Experienced in designing scalable systems and recently completed an AI-based credit risk prediction project for Geldium, where I built a predictive modeling pipeline, applied responsible AI practices, and created a business-focused presentation using Python and PowerPoint. Skilled in turning business problems into technical solutions, writing clean and efficient code, and collaborating across cross-functional teams. Committed to building ethical, high-impact software that aligns with user and business needs

EDUCATION

Bachelor of Technology (BTech)   **(2021-25)**

Electronics & Telecommunication Engineering (2021-25)
Bhubaneswar Engineering College
CGPA – 7.96 (2025)

Higher Secondary (Class XII)   **(2018-20)**

Talcher Autonomous College , Odisha
Scored 62.33% with a focus on Physics, Chemistry, Maths and
Computer Science

                                                                        (2017-18)

Secondary School (Class X)

Panchayat Raj High School,Pitiri,Odisha
Scored 74.16% in Odisha State Board

RELEVANT SKILLS

Skilled in React.js, HTML, CSS, Tailwind CSS, JavaScript, PHP, MySQL,C,C++. Experienced in EDA, logistic regression, responsible   AI practices, and presenting insights using Excel, PowerPoint, and GitHub.

ACADEMIC PROJECTS

Online Doctor's Appointment and Ambulance Booking System

Description:
This is a full-stack web application designed to streamline medical appointments and emergency ambulance services. It provides separate modules for patients, doctors, and administrators to manage appointments, availability, and ambulance requests effectively.

Key Features:

- **Patient Module: Register, log in, book appointments, request ambulances, and track status.**

- **Doctor Module:** Manage availability, approve/reject appointments, view schedules.

- **Admin Module:** Oversee user activity, manage doctors, patients, and ambulance requests.

- **Ambulance Booking:** Real-time request and dispatch functionality based on location and availability.

Technologies Used:

- **Frontend: HTML, CSS, JavaScript**

- **Backend: PHP**

- **Database: MySQL**

- **Tools: XAMPP, VS Code**

Outcome:
The system simplifies healthcare access by automating bookings and emergency services, improving communication between patients and hospitals.

Certification

Tata Group Data Analytics Job Simulation on Forage - June 2025

Completed a job simulation involving AI-powered data analytics and strategy development for the Financial Services team at Tata iQ.

Here is the Certificate

HOBBIES & INTERESTS

- Playing cricket is an energetic and engaging hobby that promotes teamwork, sharpens reflexes, and enhances physical fitness while providing a fun way to enjoy the outdoors.
- Traveling as a hobby involves exploring new places, experiencing different cultures.
- Photography as a hobby is the art of capturing moments, landscapes, or emotions through a camera to create lasting memories and express creativity.

LANGUAGES

- English
- Hindi
- Odia
